cirafon

Aegis Shockproof MagSafe Phone Case (MIL-STD-810H Certified)iPhone 16

Data sheet

Summary

- ✓ 1.2m Drop Protection (MIL-STD-810H Certified): Tested to military standards and built to withstand multiple drops from 1.2 meters without damage.
- ✓ MagSafe Compatibility: The case supports MagSafe technology, making it easy to use with MagSafe accessories such as chargers and wallets.
- ✓ Double Layer Design: The combination of a sturdy outer polycarbonate shell and a soft TPU inner layer protects your phone from scratches, bumps, and everyday wear.
- ✓ Raised Edges for Extra Protection: With a 0.3mm raised edge around the camera and a 0.2mm edge around the screen, sensitive areas are protected from scratches and damage.
- ✓ Elegant and Thin Design: Despite its strong protection, this phone case has a slim and elegant profile that retains the stylish feel of your device.

Product description

Cirafon Aegis Mobile Case – Black

Protect your phone with the Cirafon Aegis phone case – a perfect combination of style and security. This premium case offers reliable protection with its unique design, which includes both a hard polycarbonate shell and a soft TPU inner shell. With Cirafon Aegis, you get a sleek solution that effectively protects your device without compromising on appearance or functionality.

Key Features

- MagSafe Compatibility: The case supports MagSafe technology, making it easy to use with MagSafe accessories such as chargers and wallets.
- Double Layer Design: The combination of a sturdy outer polycarbonate shell and a soft TPU inner layer protects your phone from scratches, bumps, and everyday wear.
- Raised Edges for Extra Protection: With a 0.3mm raised edge around the camera and a 0.2mm edge around the screen, sensitive areas are protected from scratches and damage.
- Elegant and Thin Design: Despite its strong protection, this phone case has a slim and elegant profile that retains the stylish feel of your device.

Tested to Military Standards

The Cirafon Aegis is certified according to MIL-STD-810H. In an independent drop test conducted according to Method 516.8 (Procedure IV), the case successfully withstood 10 drops from a height of 1.2 meters – on various sides and edges – without visible damage to the phone or case. The test was carried out by the internationally recognized testing institute SGS, confirming the case's outstanding impact resistance under demanding conditions.
