PROKORD

TP-Cable S/FTP

Data sheet

Summary

- ✓ Cat6A performance at 500 MHz for high-speed links up to 10000Mbit/s.
- ✓ S/FTP shielding with individually shielded pairs and overall braid to minimise crosstalk and EMI.
- ✓ Metal-shielded RJ-45 male connectors with molded boots for secure, grounded connections.
- ✓ Blue LSZH jacket for safer indoor use, supports Power over Ethernet.
- ✓ Supplied as a single 2 m cable; consider longer lengths for extended runs.

Product description

Why choose this network cable?

Prokord TP-Cable S/FTP is a Cat6A Ethernet cable that delivers up to 10000Mbit/s and supports Power over Ethernet. Its S/FTP shielding and copper conductors reduce interference, while the blue low smoke zero halogen jacket and 2 m length make it suitable for indoor installs where a compact, reliable connection is needed.

Prokord TP-Cable S/FTP in short:

- Cat6A performance at 500 MHz for high-speed links up to 10000Mbit/s.
- S/FTP shielding with individually shielded pairs and overall braid to minimise crosstalk and EMI.
- Metal-shielded RJ-45 male connectors with molded boots for secure, grounded connections.
- Blue LSZH jacket for safer indoor use, supports Power over Ethernet.
- Supplied as a single 2 m cable; consider longer lengths for extended runs.

Product details

Prokord TP-Cable S/FTP is designed for short, precise connections between switches, patch panels and networked devices. The 26 AWG copper conductors and shielded construction keep transmission stable in electrically noisy environments. Metal-shielded RJ-45 plugs provide reliable contact and better grounding. The low smoke zero halogen jacket is appropriate for indoor and public spaces, and Power over Ethernet support lets you power devices like access points and IP phones without separate power lines.
