

Parallels® Desktop 19 for Mac

Product Description

Parallels® Desktop 19 for Mac is a fast, easy and powerful application for running Windows on your Mac with Intel or Apple silicon. Switch between your Mac and Windows applications seamlessly and tap into Parallels Toolbox with 40+ practical tools to simplify everyday tasks. It's no wonder millions of Mac users love Parallels.

Fast, Powerful, Easy

Run the Windows applications you need on the Mac you love. Bring all of your files, applications, and more from your PC to your Mac. Run the most demanding applications such as Visual Studio, and SketchUp without compromise.

Quickly switch between a wide array of operating systems without rebooting, including Windows, Linux, and others. Get up and running in minutes and easily customize to your needs.
