What does real racing feel like? Good question. We've spent over 20 years of research answering that. Our answer: the Playseat® Trophy. It's the	
Feel like you're in the game	Finally, it's here - a racing seat that can properly fuel or even fast-track your obsession with racing at top speeds. Is the Playseat® Trophy the real deal? Well, we've developed it with input from the best pro drivers around. We even gathered an impressive crew of esports talent for feedback. If you can't tell, we've poured blood, sweat and tears (minimal) into it for the best part of three decades. There's no surprise really that this chair's seen as a groundbreaking piece of engineering. Isn't it time you actually felt like you're actually IN the game and winning big?
Patented racing simulator cockpit	Meet the first ever product to feature our new patented extremely stable structure where the seat naturally adapts to your body. We designed the Playseat® Trophy so racers of any age, shape and size will feel secure. You will feel the force feedback from the steering wheel if all goes to plan for you, this Trophy will give you thrill-a-second racing for an endless supply of seconds, minutes and hours.
Comfortable sitting position	Life's too short. Race hard. Race long. How? You must prioritise your comfort. That's what we've done with the Playseat® Trophy. Sure we need you to feel safe and secure and also that you won't overheat thanks to its breathable ActiFit™ cover. Here's to bringing the heat on the track and not elsewhere.
Compatible with direct drive wheels	Created from steel alloys and space-grade aluminium, the Playseat® Trophy open cockpit offers a racing seat that's as light as technically and humanly possible. It's optimised to the hilt for Direct Drive wheelbases so feel it deep. Also, feel free to heel-and-toe shift with ease. We've optimised it for that too.
Fully adjustable	The Playseat® Trophy is fully-customisable, so find your perfect track position and get ready to get in the zone. To do that, you may need to adjust the seat height, backrest hardness, bucket seat feeling, pedal plate and/or the steering wheelbase. It's all super-easy. Find your perfect racing position in seconds. Clock's ticking. Easy.
