

# Enhance collaboration and productivity

Dell Premier Collaboration Keyboard and Mouse | **KM900**

Transform the way you collaborate with the world's first collaboration keyboard for Zoom and Microsoft Teams.\* Together with the premier rechargeable mouse, this combo puts increased productivity and effortless collaboration right at your fingertips.

**Collaborate effortlessly**

The innovative touch controls<sup>1</sup> compatible with Zoom<sup>2</sup> and Microsoft Teams<sup>3</sup> let you mute and unmute your microphone, toggle video on and off, share your screen and bring up the chat panel by double-tapping on the icons. You can swipe left or right across the icons to enable or disable them during a meeting and, once the meeting ends, the icons disappear from the keyboard.

**Intelligent illumination**

Smart backlighting with hand-proximity-detection lights up the keys as you get close, helping you to work better in any environment. Turns off in brighter conditions to conserve battery power.

**Ultra-quiet typing**

Get optimal type-feel without the noise thanks to the scissor-switch key design. Engineered to be satisfying and silent at the same time.

**Made to fit your hand**

The contoured design of the mouse fits the shape of your hand for a comfortable palm grip to help you work efficiently and stay comfortable.

**Work everywhere**

Thanks to the track-on-glass sensor you can easily work wherever you need to from glass and wood, to park benches and café tables alike. The DPI is adjustable from 800 to 8000 in increments of 200 so you can dial in the mouse to your preferences.

The ultra-smooth gliding feet create a smooth and quiet glide as you move the mouse for a more satisfying user experience.

\* Based on Dell analysis of publicly available information of competitive Personal Zoom Room keyboards, December 2023.

1 Touch controls can only be engaged in one active meeting at any one time (either Zoom or Microsoft Teams).

2 Requires Windows OS with Dell Peripheral Manager (version 1.6.4 or later) and Zoom (version 5.9.3 or later).

3 Requires Windows OS with Dell Peripheral Manager (version 1.7.2 or later) and Microsoft Teams (version 1.6.00.24078 or later). Supported only on Teams for work or school Windows desktop application. Requires Third-party App API to be enabled. For more information, refer to user's guide from dell.com/support.

# Enhance collaboration and productivity

## Long lasting operation

Keyboard: Battery lasts up to twenty days<sup>1</sup> on a single charge, while a single minute of USB-C charging lasts a whole day.<sup>1</sup>

Mouse: Battery works up to 3 months<sup>1</sup> with a full charge, and no need to replace batteries. Fast charge in 2 mins for full-day<sup>1</sup> of use with USB-C quick charging.

Advanced Exchange Service gets you a replacement unit shipped the next business day should your existing one become faulty within the 3-year warranty period.<sup>2</sup>

## Seamless and secure connectivity

The dual mode RF 2.4 GHz and Bluetooth<sup>®</sup> 5.1 connectivity lets you effortlessly connect and switch with up to 3 devices (two connections via Bluetooth<sup>®</sup> and one connection via RF dongle).

Securely pair the keyboard and mouse with your device with just one click<sup>4</sup> with Dell Pair<sup>5</sup> and with Dell Secure Link USB Receiver (RF) – the transmission is encrypted to keep your data safe.

## Tune to your specifications

Dell Peripheral Manager<sup>6</sup> lets you customize your keyboard and mouse to elevate your workflow. Program shortcuts to gain instant access to frequently used applications or functions and enhance your productivity.

1 Battery life calculation based on an assumption of an average use of 8 hours a day. Battery life may vary depending on user and computing conditions.

2 Dell will send a replacement unit the next business day if deemed necessary after remote diagnosis. Find out more at [www.dell.com/warranty](http://www.dell.com/warranty).
