

- 4K UHD (3840x2160)
- 160Hz refresh rate
- Up to 0.5ms (Min., G to G)
- Smooth gaming with AMD FreeSync™ Premium
- DCI-P3 95% wide color gamut
- VESA DisplayHDR™ 400
- Ergostand
- HDMI 2.1, supports PS5 and XBOX Series X1
- HDMI 2.1, supports PC gaming²

- Only specific 4K UHD models support 4K at 144Hz via HDMI 2.1. Additional PS5/Xbox Series X combinations include the following: SECTION SECTION OF THE METERS AND SECTION OF

We named our line of gaming products after a fierce hunter – the Predator. We design gear for serious gamers – members of what we call the Predator tribe. Every member of our tribe has the soul of a warrior on the path to battle. We each bear the mark of our deadly mission. Our ancestors painted their bodies with dirt and blood to strike fear into the hearts of their enemies and rally comrades to battle. We draw inspiration from these intimidating marks. The symbol of the Predator tribe represents loyalty, power and ferocity. Use it wisely. Embolden your tribe and demoralize the enemy. Lead us to victory

As a phenomenon known to thin-film transistors (TFTs), liquid crystal displays (LCDs) commonly exhibit a small number of discoloration dots, as so-called "non-conforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect, and as such is not covered by Acer's warranty.
