

The Starlink Router Mini is an affordable, compact, WiFi 6, dual-band radio router designed for Starlink. With excellent range and performance, its small size makes it ideal for using as a mesh node to fill in any dead spots in your home, increasing the WiFi speed and range, ensuring you have a seamless WiFi experience everywhere.

Mesh Compatibility: Compatible with Starlink Gen 2 router, Starlink Gen 3 router, Starlink Router Mini and Starlink Mini Kit. Not compatible to mesh with Starlink Gen 1 routers or 3rd party mesh systems. For best performance, use a wired connection for your router. If connecting to your Mini, use 15m Mini Starlink Ethernet Cable. If connecting to another Starlink router, use a RJ45 Cat5e or greater.
