

Voxicon D27QPU#KIT

Data sheet

Core Specs

Screen size	27 "
Display resolution	2560 × 1440 pixels
Panel type	IPS
Native aspect ratio	16:9
Maximum refresh rate	60 Hz
Screen shape	Flat
Built-in USB hub	Yes
Energy efficiency class (SDR)	G
Panel mounting interface	100 x 100 mm
Touchscreen	No
Built-in camera	No

Summary

- ✓ 27" QHD (2560x1440) IPS panel delivers sharp images and accurate colour
- ✓ 2 ms response and 60 Hz refresh keep motion clear in videos and apps
- ✓ USB-C with 65W charging plus USB 3.2 Gen1 hub streamlines laptop docking
- ✓ Frameless screen and DVI, HDMI and DisplayPort support multi-source setups
- ✓ Height, pivot and swivel adjustments reduce strain and boost comfort

Product description

Why choose this monitor?

Voxicon D27QP Ergonomic USB-C is a 27-inch 2.5K (2560 x 1440) IPS monitor that balances image clarity and everyday performance. It reduces cable clutter with USB-C power delivery up to 65 W and a built-in USB hub. The adjustable stand and frameless design improve comfort and simplify multi-monitor layouts, helping you work longer with less setup time.

D27QP Ergonomic USB-C in short:

- 27-inch QHD (2.5K) IPS panel, suited for document work, spreadsheets, and detailed image review.
- USB-C with 65 W power delivery and an integrated USB 3.2 hub, so you can connect and charge a laptop with one cable.
- Ergonomic stand with height adjustment, swivel and pivot, plus VESA 100 x 100 mm mounting for flexible placement.
- Frameless edges make multi-monitor setups neater and reduce distractions at the bezel.
- Note: 60 Hz refresh rate and no adaptive sync make this less suitable for high-frame-rate competitive gaming. It also does not include a built-in camera.

Visual quality and daily use

The D27QP Ergonomic USB-C provides a stable, colour-accurate image for routine office tasks and creative reviews. QHD means 2560 x 1440 pixels, which gives more screen space than Full HD without requiring higher GPU power. A 2 ms response time helps keep motion looking smooth during video playback and general multimedia use.

Connections and setup

You get HDMI, DisplayPort, a DVI input for older systems, and a USB-C input that carries video, data and up to 65 W of power. The built-in USB hub reduces the need for extra dongles, and included USB-C and DisplayPort cables plus a power adapter make initial setup faster. The monitor supports VESA mounting and arrives with a fully adjustable stand, so you can adapt the screen to your workspace and posture.
