Summary

Portable 15.6" USB-C secondary screen with Full HD IPS panel

- ✓ Portable 15.6" secondary display for work on the go
- ✓ Full HD resolution with IPS panel and wide viewing angles
- ✓ USB-C with single-cable solution for video and power
- ✓ Mini HDMI for compatibility with more devices
- ✓ Thin and lightweight design that easily fits in your bag

Product description

Voxicon Portable USB-C Monitor 15.6" Full HD IPS

Expand your workspace, wherever you are

Voxicon Portable USB-C Monitor 15.6" Full HD IPS is a handy secondary screen for anyone who works on the go and wants more screen real estate without compromising on portability. The slim and lightweight design makes the monitor easy to carry in your bag, which makes it ideal for work while travelling, in the home office or at temporary workspaces.

With a 15.6 inch IPS panel and Full HD resolution you get a sharp image, good colour reproduction and wide viewing angles, perfect for documents, spreadsheets, presentations and video meetings.

Easy connection with a single cable

The monitor connects via USB-C with full functionality, which means that both video signal and power can be transferred via one and the same cable when used with compatible computers. This gives quick setup and a tidy workspace without unnecessary cable clutter.

For increased flexibility there is also mini-HDMI, which makes the monitor compatible with more types of computers and devices.

- USB-C (full function) for video and power
- Mini-HDMI for wide compatibility
- 3.5 mm headphone jack for audio

Flexible secondary screen for work and collaboration

The portable monitor is designed to be quickly set up and used whenever and wherever needed. It works excellently as an extra screen for multitasking, presentations in smaller settings or as a complement to a laptop for increased productivity.

The minimalist design makes the monitor easy to place on desks, meeting tables or other work surfaces without taking up much space.

Comfortable viewing for longer work sessions

The IPS panel offers wide viewing angles of up to 178 degrees and a uniform image even from off-axis angles. Support for low blue light levels contributes to more comfortable use during longer work sessions and reduces the risk of eye strain.

Short summary

- Portable secondary monitor in 15.6" format
- Full HD resolution (1920 x 1080) with IPS panel
- USB-C single-cable solution for video and power

- Mini-HDMI for extra compatibility
- Thin, lightweight and easy to carry
