

Voxicon VXP115F-O

Data sheet

Core Specs

Screen size	15.6 "
Display resolution	1920 × 1080 pixels
Panel type	OLED
Native aspect ratio	16:9
Maximum refresh rate	60 Hz
Display brightness (typical)	400 cd/m²
Screen shape	Flat
Built-in USB hub	No
Touchscreen	No

Summary

Portable OLED display with deep blacks and professional image quality

- ✓ 15.6" OLED display with true blacks and extreme contrast
- ✓ 100 % DCI-P3 for accurate and vivid color reproduction
- ✓ USB-C with single-cable solution for video and power
- ✓ Detachable magnetic stand for flexible placement
- ✓ Premium design with OLED panel

Product description

VOXICON OLED 15.6" Portable USB-C Monitor

Premium OLED display for mobile productivity

VOXICON P-SCREEN+ OLED 15.6" is an exclusive portable monitor for users with high demands on image quality, design and flexibility. With an advanced OLED panel, the screen delivers deep blacks, extreme contrast and vivid colours, perfect for both professional work and creative content.

The thin and lightweight design makes the screen easy to bring along, whether you work from the office, at home or on the go. An ideal solution if you want to extend your workspace without compromising on quality.

OLED, top-class image quality

OLED technology gives each pixel its own light source, resulting in outstanding contrast (100 000:1), deep blacks and precise colour reproduction. With 100 % DCI-P3 colour gamut and high brightness up to 400 cd/m², you get an image that really stands out, whether you work with graphics, video, presentations or entertainment.

The fast response time of 1 ms and support for HDR and Adaptive Sync also provide a smooth and responsive viewing experience.

Easy connectivity, one cable is enough

VOXICON P-SCREEN+ OLED connects easily via USB-C with full functionality, which means that both video signal and power can be transmitted through a single cable when used with compatible computers. For extra flexibility there is also mini-HDMI, which makes the screen compatible with a wide range of devices.

- 2 × USB-C (video and power)
- 1 × mini-HDMI
- Plug & Play, no drivers required

Flexible magnetic stand

The screen comes with a detachable stand that attaches magnetically to the back, which makes it easy to quickly mount or remove the stand as needed. The magnetic attachment provides stable support on a desk or meeting table, while also contributing to a clean and minimalist design when the stand is not in use.

This solution makes VOXICON P-SCREEN+ OLED extra flexible for both stationary and mobile work.

Premium design in portable form

The sleek CNC machined black chassis gives the screen an exclusive and professional look that fits just as well in an office environment as in a home office. Despite its thin format, the screen also offers surprisingly clear sound thanks to the built-in stereo speakers, well suited for calls, presentations and everyday media content.

Short summary

- 15.6" Full HD OLED display (1920 × 1080)
- OLED panel with extreme contrast and deep blacks
- 100 % DCI-P3 for accurate and vivid colour reproduction
- USB-C single-cable solution for video and power
- HDR, Adaptive Sync and 1 ms response time
- Detachable magnetic stand for flexible placement

Product information

- Screen size: 15.6"
- Panel type: OLED
- Resolution: 1920 × 1080 (Full HD)
- Aspect ratio: 16:9
- Brightness: up to 400 cd/m²
- Contrast ratio: 100 000:1
- Response time: 1 ms (G2G)
- Viewing angle: 178° / 178°
- Colour gamut: 100 % DCI-P3
- Refresh rate: up to 60 Hz
- Connections: 2 × USB-C, 1 × mini-HDMI
- Audio: 2 × 1 W built-in speakers
- Power consumption: approx. 7 W
- Colour: Black
