Product description

Prokord PK-5KDLC100MPRO/SM – Powerful and flexible docking station

Simplify your workday with Prokord PK-5KDLC100MPRO/SM, a versatile and high-performance docking station that transforms your laptop into a fully fledged workstation. The compact design saves space on your desk while providing all the ports and connections you need for an efficient workday.

With DisplayLink technology, you get stable and high resolution video transmission, whether you work with multiple displays, video editing or advanced spreadsheets. Thanks to support for both USB-C and USB-A (via the included adapter), the dock works with both new and older computers, without hassle.

Universal compatibility with DisplayLink technology

Equipped with a DisplayLink chipset, this docking station offers broad compatibility across different operating systems and hardware platforms. Whether you use Windows, macOS, Chrome OS or Ubuntu, a seamless connection and high resolution graphics transmission is ensured. This allows you to connect multiple displays via a single USB port, which simplifies your workspace and boosts productivity.
