

Power Socket Adapter

Data sheet

Summary

- ✓ Converts a Type F (Schuko) wall outlet to two Type C (Europlug) sockets, ideal for phone chargers, laptop power bricks, and other low-current devices.
- ✓ Built for 230V mains, matching standard voltage in many European countries.
- ✓ Straight male/female form factor, compact and easy to plug in and remove.
- ✓ White colour blends with most sockets and office interiors.
- ✓ Note: this adapter does not change voltage. Verify your devices are compatible with 230V before use.

Product description

Why choose this power socket adapter?

Prokord Power Socket Adapter is a compact and practical solution for expanding a Type F (Schuko) outlet into two Type C (Europlug) sockets. It helps simplify desk and workstation setups by letting you power multiple small devices without adding a power strip. The straightforward design and white finish make it unobtrusive in office and IT environments.

Prokord Power Socket Adapter in short:

- Converts a Type F (Schuko) wall outlet to two Type C (Europlug) sockets, ideal for phone chargers, laptop power bricks, and other low-current devices.
- Built for 230V mains, matching standard voltage in many European countries.
- Straight male/female form factor, compact and easy to plug in and remove.
- White colour blends with most sockets and office interiors.
- Note: this adapter does not change voltage. Verify your devices are compatible with 230V before use.

Main function and usability

The Prokord Power Socket Adapter lets you connect Europlug-equipped devices to Schuko outlets while providing two sockets from one wall point. It is suited for everyday IT accessories and small appliances that use Type C plugs. The adapter’s simple construction makes it easy to carry and reuse across different rooms or sites, helping reduce the need for additional cabling and larger power extension units.

Technical Specification Matrix

Header

Manufacturer	Prokord
--------------	---------

Features

Plug connector type	Type F
Socket connector type	Type C (Europlug)
AC input voltage	230 V
Connector 1 form factor	Straight
Connector 2 standard	IEC 60906-1
Product colour	White
Sockets quantity	2
Connector gender	Male/Female
Number of poles	3
