

Power Socket 3Xsocket 1.5m Black On/Off

Data sheet

Summary

- ✓ Three Type F outlets, ideal for monitors, printers, routers, and other office devices.
- ✓ Integrated on/off switch lets you cut power to all connected devices at once.
- ✓ Angled plug form factor helps fit the cable behind furniture and reduces strain on the wall socket.
- ✓ 1.5 m cable length for flexible placement without additional extension.
- ✓ Indoor use only, with a Type F (CEE 7/4) plug — check compatibility with your local sockets before purchase.

Product description

Why choose this power socket?

Power Socket 3Xsocket 1.5m Black On/Off Prokord gives a simple and reliable way to add three Type F outlets where you need them. It combines a 1.5m cable and an integrated on/off switch for easy control, making it practical for desks, media cabinets, and small office setups while keeping layout and power handling straightforward.

Power Socket 3Xsocket 1.5m Black On/Off in short:

- Three Type F outlets, ideal for monitors, printers, routers, and other office devices.
- Integrated on/off switch lets you cut power to all connected devices at once.
- Angled plug form factor helps fit the cable behind furniture and reduces strain on the wall socket.
- 1.5 m cable length for flexible placement without additional extension.
- Indoor use only, with a Type F (CEE 7/4) plug — check compatibility with your local sockets before purchase.

Practical use

Power Socket 3Xsocket 1.5m Black On/Off makes it easy to power several devices from a single wall point. The on/off switch provides quick control when you need to disconnect equipment for maintenance or save standby energy. Use it to organise power for a workstation, small office area, or AV setup where three outlets are sufficient.

Design and safety

The compact, black housing keeps the strip unobtrusive in tight spaces. The angled plug helps the cable run neatly along walls or behind furniture and reduces stress on the wall outlet. The clearly visible red switch gives an immediate visual indication of the strip's power state.

Installation and compatibility

This unit is designed for indoor use with Type F AC outlets and a Type F (CEE 7/4) power plug. One piece is included in the package. Before connecting multiple high-power appliances, check the devices' power requirements to ensure safe, reliable operation.

Technical Specification Matrix
