

Power Socket 4Xsocket 1.5m White On/Off

Data sheet

Summary

- ✓ Four grounded Type F outlets, suitable for common European plugs and appliances.
- ✓ Built-in on/off switch for central control of all connected devices.
- ✓ 1.5 m cable with an angled plug for easier placement behind desks and cabinets.
- ✓ Compact white housing that stays visually unobtrusive in office or home environments.
- ✓ Intended for indoor use only, so plan placement accordingly.

Product description

Why choose this power strip?

Prokord Power Socket 4Xsocket 1.5m White On/Off gives you simple, reliable power distribution for desks and small equipment clusters. It helps reduce cable clutter, lets you switch several devices on or off at once, and its angled plug and 1.5 m cable make positioning the strip behind furniture easier.

Prokord Power Socket 4Xsocket 1.5m White On/Off in short:

- Four grounded Type F outlets, suitable for common European plugs and appliances.
- Built-in on/off switch for central control of all connected devices.
- 1.5 m cable with an angled plug for easier placement behind desks and cabinets.
- Compact white housing that stays visually unobtrusive in office or home environments.
- Intended for indoor use only, so plan placement accordingly.

Main functions

Prokord Power Socket 4Xsocket 1.5m White On/Off provides four AC outlets from a single wall connection. You can power monitors, printers, routers, and other equipment together and use the central switch to cut power when devices are idle. This makes daily operation and shutdowns quicker and more convenient.

Design and practical features

The unit uses Type F (CEE 7/4) grounded outlets, giving compatibility with widely used European plugs and a secure earth connection. The angled power plug lets the cable run neatly along walls or behind furniture, and the clearly marked rocker switch makes it easy to see and control power at a glance.

Installation and compatibility

The strip is designed for indoor placement and comes as a single unit ready to use. Its straightforward setup and standard outlet format make it suitable for office desks, meeting rooms, reception areas, and home workstations. Keep it dry and mounted or placed where it will not be exposed to heavy wear.
