

Power Socket 6Xsocket 1.5m Black On/Off

Data sheet

Summary

- ✓ Six Type F outlets, suitable for powering monitors, PCs, routers and printers from a single wall socket.
- ✓ 1.5 m cable with angled Type F plug helps position the strip close to walls or behind furniture.
- ✓ Clearly visible on/off switch lets you shut down power quickly for maintenance or to save energy.
- ✓ Compact black housing fits indoor environments such as offices, meeting rooms, and IT closets.
- ✓ Consider whether you need built-in surge protection or USB charging, depending on your equipment needs.

Product description

Why choose this power strip?

Power Socket 6Xsocket 1.5m Black On/Off Prokord provides reliable, compact power distribution for small office workstations and IT setups. Six Type F outlets and a 1.5 m angled cable make it easy to connect multiple devices near desks or racks. The built-in on/off switch gives simple control to cut power when devices are not in use, helping reduce energy consumption and wear.

Power Socket 6Xsocket 1.5m Black On/Off in short:

- Six Type F outlets, suitable for powering monitors, PCs, routers and printers from a single wall socket.
- 1.5 m cable with angled Type F plug helps position the strip close to walls or behind furniture.
- Clearly visible on/off switch lets you shut down power quickly for maintenance or to save energy.
- Compact black housing fits indoor environments such as offices, meeting rooms, and IT closets.
- Consider whether you need built-in surge protection or USB charging, depending on your equipment needs.

Main functions

Power Socket 6Xsocket 1.5m Black On/Off Prokord distributes mains power to six Type F outlets, so you can run multiple peripherals from one socket. The angled plug and 1.5 m cable make placement against walls and behind furniture straightforward. The rocker switch gives a single control point to turn all connected devices on or off.

Practical use and placement

The black design and slim layout suit office desks, conference areas, and small IT cabinets. Use it to power desktop systems, networking equipment, displays, or clustered peripherals. It is intended for indoor use only, so check installation location and requirements before purchase.
