Product description

Why choose this displayport to HDMI cable?

Prokord Displayport to HDMI 2m White - Gold plated provides a simple way to connect DisplayPort-equipped computers to HDMI monitors and TVs over a 2 m run. It supports up to 4K×2K at 30 Hz and includes HDCP support for protected content. Gold-plated contacts and foil-plus-braid shielding help keep the signal stable in meeting rooms, home theaters, and everyday workstation setups.

Displayport to HDMI 2m White - Gold plated in short:

- Link DisplayPort sources such as laptops or desktops to HDMI displays and televisions.
- Supports resolutions up to 4K×2K at 30 Hz with HDCP for protected playback.
- Gold-plated contacts and aluminium-foil plus braid shielding for consistent connectivity and reduced interference.
- Flexible 28AWG tinned-copper cable with a PVC jacket and a 2 m length for tidy installations.
- Consideration: maximum refresh rate at top resolution is 30 Hz, so it is not ideal for fast-paced gaming.

Displayport to HDMI 2m White - Gold plated

This DisplayPort to HDMI cable is a plug-and-play accessory that converts a DisplayPort output into an HDMI signal without extra adapters. The cable uses DisplayPort 1.2 and HDMI 1.4 compatibility to deliver clear video for presentations, streaming, and general multimedia. Gold-plated contacts improve corrosion resistance and maintain a reliable connection, while the tinned-copper conductors and foil-plus-braid shielding reduce signal loss and interference. The clean white PVC jacket and modest 7.3 mm diameter make the cable easy to route and manage in office and AV environments.
