

Power Cord 0.5m Extension Angled Schuko Black 0.5m C14 C13

Data sheet

Summary

- ✓ Compact 0.5 m cable, suited for short connections in racks and patch panels.
- ✓ Angled female C14 saves space and reduces strain on rear connectors.
- ✓ Straight male C13 fits standard IEC C13 sockets on PDUs and devices.
- ✓ Black finish blends into server rooms and structured cable runs.
- ✓ Fixed short length, not suitable for long-distance connections.

Product description

Why choose this power cord?

Prokord Power Cord 0.5m Extension Angeld Schuko Black provides a compact, reliable connection for servers, switches and other rack-mounted equipment. Its short 0.5 meter length reduces cable clutter, while the angled C14 coupler eases routing in tight rear panels for straightforward installation and maintenance.

Prokord Power Cord 0.5m Extension Angeld Schuko Black in short:

- Compact 0.5 m cable, suited for short connections in racks and patch panels.
- Angled female C14 saves space and reduces strain on rear connectors.
- Straight male C13 fits standard IEC C13 sockets on PDUs and devices.
- Black finish blends into server rooms and structured cable runs.
- Fixed short length, not suitable for long-distance connections.

Product details

Prokord Power Cord 0.5m Extension Angeld Schuko Black links IEC C13 and C14 power interfaces commonly used on IT equipment. The angled female C14 makes it easier to position devices close to power sources and helps prevent connector stress during frequent access. Use this cord when you need a neat, short connection between a PDU and equipment or to tidy up cabling in dense rack environments.
