

Prokord DPC-0005

Data sheet

Core Specs

Cable length	0.5 m
Connector 1	C14
Connector 2	C13
Product colour	White

Summary

- ✓ 0.5m length keeps power cables short and tidy for racks
- ✓ Standard C14 to C13 connectors fit servers, UPS and PDUs
- ✓ Straight male and female plugs make connection and routing easy
- ✓ White finish blends into light coloured racks and office setups

Product description

Why choose this power cord?

Prokord Power Cord PC 0.5m White gives you a short, reliable link between IEC C14 and C13 ports, reducing excess cable in dense rack and workstation setups. It helps keep installations tidy, makes local equipment swaps faster, and blends into light-coloured environments for a cleaner appearance.

Power Cord PC 0.5m White in short:

- C14 (male) to C13 (female) straight connectors, compatible with PDUs, UPS units, and many servers.
- 0.5 m length, ideal for close-proximity connections and neat cable management in racks and cabinets.
- White cable and connectors for discreet routing in light-coloured rooms or equipment.
- Molded straight connector ends for a secure fit and easier handling when space is limited.
- Note: the short length is not suitable if you need longer reach between devices.

Product details

Power Cord PC 0.5m White provides a simple, practical connection for short runs between power distribution units and equipment. The straight C14 to C13 connection fits standard IEC sockets, so you can replace or extend existing power links without reconfiguring hardware. The compact length reduces cable clutter and makes it easier to maintain tidy, professional installations.
