

Prokord DPC-0009

Data sheet

Core Specs

Cable length	1 m
Connector 1	C20
Connector 2	C19
Product colour	Black

Summary

- ✓ 1m length extends power where space is tight, reduces cable clutter
- ✓ C19 female to C20 male connectors ensure standard IT compatibility
- ✓ Straight form factors simplify installation in racks and cabinets
- ✓ Black finish blends with equipment for discreet cable routing
- ✓ Durable build provides reliable, low-maintenance connections

Product description

Why choose this power cable extension?

Prokord Power Cable 1.0m Extension C19/C20 gives you a compact, reliable way to extend power connections between PDUs, UPS units, and server equipment. The 1-metre black cable with straight C20 (male) to C19 (female) connectors makes installation simple in rack and tight-space environments, reducing cable clutter and easing maintenance.

Prokord Power Cable 1.0m Extension C19/C20 in short:

- Extends power connections using standard C20 (male) to C19 (female) IEC connectors, compatible with many PDUs, UPS units, and servers.
- 1.0 m length, suited for short runs in racks and close equipment layouts.
- Straight, molded connectors with visible strain-relief for a secure, low-profile fit.
- Black finish blends with typical rack and office cabling.
- Consideration: intended for indoor IT use, so evaluate length needs for larger installations.

Product details

The cable provides a straightforward extension between devices with C19 inlets and C20 outlets, letting you avoid adapters and complex rerouting. Its straight C20 (male) and C19 (female) connectors plug directly into standard IEC sockets, offering a neat solution for rack-mounted equipment and dense office setups. The molded connector bodies and strain-relief design help maintain a secure connection during routine access and rearrangement, supporting easier cable management and serviceability.
