

Prokord DPC-0019

Data sheet

Core Specs

Cable length	2 m
Connector 1	C20
Connector 2	C19
Product colour	Black

Summary

- ✓ 2m length bridges short gaps between PDUs and rack devices
- ✓ Straight C20 to C19 connectors make alignment in tight racks easy
- ✓ Black molded connectors with strain relief reduce wear and tidy routing
- ✓ Male to female configuration lets you keep existing power layouts intact
- ✓ Built for indoor server rooms and network closets, fits managed IT spaces

Product description

Why choose this power cable?

Prokord Power Cable 2.0m Extension C19/C20 is a practical extension lead that lets you bridge C20 outlets to C19 inlets with minimal effort. Its 2 m length and straight male-to-female connectors simplify alignment in equipment racks. Black molded connectors with integrated strain relief support neat routing and reliable handling in server rooms and network closets.

Prokord Power Cable 2.0m Extension C19/C20 in short:

- Extends power from C20 outlets to C19 inlets, suitable for PDUs, servers, and rack-mounted equipment.
- Straight C20 male and C19 female connectors make insertion straightforward in tight rack spaces.
- Black molded connectors with strain relief help keep cable runs tidy and reduce connector stress.
- 2 m length fits short runs between adjacent racks or repositioned devices.
- Consideration: fixed 2 m length and intended for indoor use may not suit every rack layout.

How it helps

The Prokord Power Cable 2.0m Extension C19/C20 lets you connect equipment without modifying existing power infrastructure. Use it to link PDUs to devices, relocate hardware within a rack, or tidy cabling where a short, reliable extension is needed. The straight, molded connectors and strain relief make handling and insertion easier during installation and maintenance.
