- ✓ DisplayPort 1.2 support delivers high resolution video and audio
- ✓ Gold-plated contacts ensure stable connections and resist corrosion
- ✓ Mini DisplayPort to DisplayPort male connectors for direct connection
- ✓ White straight connectors blend into office setups for a neat look

Product description

Why choose this display cable?

Cable Displayport - Mini-Displayport 5m White Prokord helps you link Mini DisplayPort sources to DisplayPort displays with minimal setup. Its 5 m length and white jacket make routing and installation neat in meeting rooms and workstations. DisplayPort 1.2 compliance and gold-plated contacts support reliable signal transfer and long-term connection quality.

Cable Displayport - Mini-Displayport 5m White in short:

- Connects Mini DisplayPort-equipped laptops and tablets to DisplayPort monitors, projectors, and docking stations.
- 5 m length offers flexible placement for desks and conference-room setups.
- DisplayPort 1.2 support provides the bandwidth needed for modern external displays.
- Gold-plated contacts and straight male connectors improve contact reliability and reduce corrosion.
- White jacket blends into light interiors; check that your source has a Mini DisplayPort output before purchase.

Product details

The Cable Displayport - Mini-Displayport 5m White uses straight male Mini DisplayPort and DisplayPort connectors for a direct, adapter-free connection between source and display. Gold-plated connector contacts help maintain stable connections over time. The 5 m white jacket is easy to route and conceal, making the cable suitable for professional installations where a clean appearance matters.
