

Prokord DVI-DVI 0011

Data sheet

Core Specs

Cable length	10 m
Connector 1	DVI-D
Connector 2	DVI-D
Product colour	Black

Summary

- ✓ 10m length lets you place equipment and displays farther apart
- ✓ Dual Link DVI support enables higher resolution and smoother video
- ✓ Gold-plated contacts improve signal reliability and resist corrosion
- ✓ Male to male straight connectors provide a secure, plug and play fit
- ✓ Black finish blends discreetly into racks and workstations

Product description

Why choose this DVI cable?

Prokord Cable DVI-D - DVI-D Single Link 10m Black provides a reliable, cost-effective connection for DVI-D displays over longer runs. Gold-plated contacts help maintain consistent electrical contact and resist corrosion. Integrated ferrite cores reduce electromagnetic interference, giving a more stable image. Straight male-to-male connectors make installation quick and compatible with standard DVI-D ports.

Cable DVI-D - DVI-D Single Link 10m Black in short:

- Connects DVI-D-equipped displays, projectors, and graphics cards over a 10 m run.
- Gold-plated contacts for improved contact reliability and reduced corrosion.
- Ferrite cores reduce EMI, useful in equipment racks and crowded cable runs.
- Straight male-to-male connectors, plug-and-play with standard DVI-D ports.
- Consider cable length when planning high-resolution layouts to ensure optimal signal performance.

Product details

The cable carries digital video between DVI-D ports with a simple, robust design suited to conference rooms, control stations, and AV installations. Its 10 m length lets you position displays away from source equipment while keeping a tidy, black finish. Visible ferrite chokes and gold-plated contacts focus on signal integrity and long-term reliability.
