

Prokord DVI-DVI 0012

Data sheet

Core Specs

Cable length	1 m
Connector 1	DVI
Connector 2	DVI
Product colour	Black

Summary

- ✓ Stable digital link over 1m, ideal for conference rooms
- ✓ Gold-plated contacts and tinned copper reduce connection faults
- ✓ Al foil and braid shield with ferrite cores cut EMI for clearer images
- ✓ Durable PVC jacket and compact 5.5mm cable suit daily use
- ✓ Straight male DVI connectors ensure secure fits in compatible ports

Product description

Why choose this cable?

Prokord Cable DVI-D - DVI-D Single Link 1m Black delivers a dependable short-range digital connection between DVI-D devices. Its gold-plated contacts, tinned copper conductors, and foil-plus-braid shielding help reduce signal loss and interference. The one-metre length and straight male connectors suit compact setups, making installations cleaner and reducing troubleshooting time.

Cable DVI-D - DVI-D Single Link 1m Black in short:

- One-metre DVI-D link for secure connections between a computer, monitor, or projector in tight spaces.
- Gold-plated contacts and tinned copper conductors for consistent contact and reduced corrosion over time.
- Shielding plus ferrite suppression near the ends reduces electromagnetic interference for clearer image transmission.
- PVC jacket and slim 5.5 mm diameter make the cable easy to route and durable for everyday use.
- Consideration: single link design and 1 m length are intended for short runs, not long-distance or dual-link requirements.

Product details

The Prokord Cable DVI-D - DVI-D Single Link 1m Black connects two DVI-D ports with straight male connectors for a stable physical and digital link. Built with shielding and ferrite beads, it helps maintain signal integrity in typical office and AV environments. The cable is sold as a single unit and its compact length helps reduce cable clutter in conference rooms, desktops, and AV racks.

Technical Specification Matrix
