Product description

Why choose this cable?

Prokord Cable HDMI Mini - DVI-D 1m Black provides a straightforward digital link from Mini HDMI sources to DVI-D displays. It combines a thin, flexible PVC jacket with aluminium-foil shielding for easy routing and reduced interference. Gold-plated contacts and straight male connectors ensure durable, reliable connections for monitoring, presenting, or short-range installations.

Cable HDMI Mini - DVI-D 1m Black in short:

- Connects Mini HDMI sources, such as cameras or tablets, directly to DVI-D displays for video-only transmission.
- Thin 4.8 mm cable and 1 m length suit compact setups and on-location use where space and mobility matter.
- Gold-plated contacts and tinned copper conductors improve conductivity and resist corrosion.
- Supports dual-link DVI where both devices accept dual-link signals, for higher bandwidth video.
- Check compatibility, it does not support analog DVI-A, VGA, HDCP-protected playback, or HDMI audio features.

Product details

This Prokord cable converts a Mini HDMI output to a DVI-D input and carries digital video only. The 32 AWG tinned copper conductors and aluminium foil shielding help keep the signal stable and reduce interference. Straight, gold-plated male connectors provide consistent contact and easy insertion. The cable follows HDMI 1.4 standards and does not support HDCP or HBR2, so some protected content and advanced HDMI audio/video features may not be available.
