Prokord Cable HDMI - HDMI 3m Thin Gold Black

This cable transfers digital audio and video between HDMI-equipped devices with plug-and-play simplicity. Tinned copper conductors and combined foil and braid shielding reduce interference, which helps keep picture and sound stable during presentations or media playback. Gold-plated connector contacts and HDCP support ensure compatibility with protected content. With an 8-bit colour depth and up to 60 Hz refresh capability, the cable suits standard high-definition and many 4K use cases, while its thin, lightweight construction makes routing and cable management straightforward.
