Product description

Why choose this cable?

Prokord Cable HDMI - HDMI Mini 3m Black gives you a straightforward way to carry Full HD video and multi-channel audio across a 3 m run. It combines HDMI 1.4 compatibility, HDCP support, and gold-plated contacts with robust aluminium-foil plus braid shielding and a PVC jacket to keep signals stable and reduce interference in everyday AV and presentation setups.

Cable HDMI - HDMI Mini 3m Black in short:

- 3 m mini HDMI to HDMI, male to male, for connecting cameras, tablets, or laptops with mini-HDMI outputs to TVs, projectors, or monitors.
- Supports HDMI 1.4 and HDCP, with up to 1080p at 60 Hz, suitable for Full HD playback and meetings.
- Gold-plated contacts, aluminium foil plus braid shielding, and a PVC jacket for reliable signal integrity and durability.
- Slim 4.2 mm cable with 34 AWG tinned copper conductors and visible ferrite cores to reduce electromagnetic interference.
- Consider that HDMI 1.4 does not support HDR or higher 4K refresh rates.

Product details

The cable transfers audio and video between mini-HDMI devices and standard HDMI displays with a measured data rate of 2.55 Gbit/s, providing stable performance for movies, streaming, conferencing, and projector setups. Tinned copper conductors, gold plating, and combined foil and braid shielding help minimise signal loss over the 3 m length. Straight male plugs fit common mini-HDMI and HDMI sockets and the slim jacket makes the cable easy to route in fixed AV or desktop arrangements.
