

Internal Power Ext 15-Pin SATA Extension 0.3m

Data sheet

Summary

- ✓ Extends SATA power connections with a straight male-to-female 15-pin design, useful for adding clearance inside small enclosures.
- ✓ 0.3 m cable length keeps cabling tidy and helps maintain airflow in dense builds.
- ✓ Multicolour wiring makes identification and cable management easier during assembly and maintenance.
- ✓ Intended for internal power extension only, not for data transfer.
- ✓ Check that the fixed length suits your chassis layout before purchase.

Product description

Why choose this internal power extension cable?

Prokord Internal Power Ext 15-Pin SATA Extension 0.3m is a reliable internal power extension cable designed for streamlined SATA power distribution within compact systems. It offers a straight male-to-female 15-pin connection and a short 0.3 m lead to reduce clutter while simplifying routing and installation in tight cases.

Prokord Internal Power Ext 15-Pin SATA Extension 0.3m in short:

- Extends SATA power connections with a straight male-to-female 15-pin design, useful for adding clearance inside small enclosures.
- 0.3 m cable length keeps cabling tidy and helps maintain airflow in dense builds.
- Multicolour wiring makes identification and cable management easier during assembly and maintenance.
- Intended for internal power extension only, not for data transfer.
- Check that the fixed length suits your chassis layout before purchase.

Product details

This accessory extends an existing internal SATA power connection, so you can position drives or other SATA-powered components more conveniently without rerouting primary cables. The straight-form connectors align easily with standard SATA power ports and the multicolour wires aid quick visual identification during installation. The short length is practical for compact desktops, server racks, and system refurbishing where excess cable would cause clutter.

Technical Specification Matrix
