

Internal Power Y-Cable For 2 Pcs 3.5" Units 0.15 m

Data sheet

Summary

- ✓ Splits one 4-pin power connection into two 4-pin connections, suitable for powering two 3.5" units.
- ✓ Straight 4-pin male connectors on both ends for direct internal PSU and drive connections.
- ✓ Multicolour wiring, including red, yellow, and black conductors, helps identify voltage rails during installation.
- ✓ Short 0.15 m cable length reduces clutter and is suited for close-range internal routing.
- ✓ Consideration: the short length is ideal for compact builds, so measure internal routing if you need more reach.

Product description

Why choose this internal power cable?

Prokord Internal Power Y-Cable For 2 Pcs 3.5" Units 0.15 m gives a simple and reliable way to power two internal 3.5" drives from a single 4-pin supply connector. The short 0.15 m length keeps wiring tidy in compact cases and the straight 4-pin connectors provide stable electrical contact for storage or peripheral drives.

Internal Power Y-Cable For 2 Pcs 3.5" Units 0.15 m in short:

- Splits one 4-pin power connection into two 4-pin connections, suitable for powering two 3.5" units.
- Straight 4-pin male connectors on both ends for direct internal PSU and drive connections.
- Multicolour wiring, including red, yellow, and black conductors, helps identify voltage rails during installation.
- Short 0.15 m cable length reduces clutter and is suited for close-range internal routing.
- Consideration: the short length is ideal for compact builds, so measure internal routing if you need more reach.

Use and compatibility

This Prokord cable is designed for internal use in desktop systems where you need to power multiple 3.5" drives from a single Molex-style 4-pin supply. The straightforward Y-split design makes installation quick and keeps connectors secure, so you can add drives without changing the power supply layout. Check that your drives accept 4-pin connectors before purchasing.
