- ✓ Supplied as a single cable, suitable for one external device connection.
- ✓ Check that your host and device support eSATA or an external SATA interface before purchase.

Product description

Why choose this cable?

Prokord E-SATA cable Sata/sas External 1.5m black gives a simple way to connect external SATA devices to systems with an eSATA port. The 1.5 m length lets you place drives or enclosures at a convenient distance while maintaining reliable data transfer. Straight male-to-male connectors and a black finish make it practical for rack or desktop installations.

E-SATA cable Sata/sas External 1.5m black in short:

- 1.5 m length for flexible placement between host and external drive or enclosure.
- Straight male-to-male SATA connectors for direct eSATA connections.
- Black colour for low visibility in standard IT environments.
- Supplied as a single cable, suitable for one external device connection.
- Check that your host and device support eSATA or an external SATA interface before purchase.

Product details

This Prokord cable provides a direct external SATA link between a computer or NAS and an eSATA-capable drive or enclosure. It is plug-and-play, making it suitable for data backup, storage expansion, and moving large files between systems. The straight SATA connectors are designed for standard eSATA ports and the single-piece pack covers one connection need.
