Product description

Why choose this cable?

Prokord Cable USB 2.0 Ext Type A-A Male-Female 0.1m Black provides a compact, reliable extension for USB peripherals in confined setups. It keeps desk or rack layouts tidy while maintaining consistent data links. The low smoke zero halogen jacket adds a safety advantage in shared or enclosed environments.

Prokord Cable USB 2.0 Ext Type A-A Male-Female 0.1m Black in short:

- Very short 0.1 m extension, ideal for tight desks, racks, or test benches.
- USB 2.0 data link, supporting up to 480 Mbit/s for printers, scanners, keyboards and mice.
- Low smoke zero halogen (LSZH) jacket for reduced hazard in enclosed spaces.
- Straight male and female USB-A connectors with nickel-plated contacts for stable connections.
- Consideration: not suitable for long runs, USB 3.x speeds, or USB Power Delivery requirements.

Product details

This single-pack round cable bridges a male USB-A plug to a female USB-A socket to extend existing connections without adding bulk. The straight connector forms make it easy to route in cramped areas. Nickel-plated contacts improve contact durability and corrosion resistance. Power handling is limited and it does not implement the USB Power Delivery standard, so it is best used for signaling and low-power peripheral connections.
