Product description

Why choose this cable?

Cable USB 3.1 Type A-C Male-Male 1m Black Prokord provides a dependable one-metre link between USB-A hosts and USB-C devices, combining fast data transfer and video capability with a low-smoke zero-halogen jacket for safer use in office or public environments. It is designed for straightforward connections where reliable data throughput and good cable shielding matter.

Cable USB 3.1 Type A-C Male-Male 1m Black in short:

- USB-A to USB-C male-to-male cable, 1 m length, for connecting laptops, docking stations, external drives, and similar devices.
- High-speed data transfer up to 10 Gbit/s for quicker file transfers and backups.
- Supports USB Type-C DisplayPort Alternate Mode for video output to compatible displays.
- LSZH jacket and nickel-plated connectors offer improved shielding and lower emissions in confined spaces.
- Check device charging requirements, this cable is intended for standard USB power levels rather than high-power charging.

About this cable

Cable USB 3.1 Type A-C Male-Male 1m Black Prokord carries data and standard 5V USB power between a USB-A host and a USB-C device. The cable’s construction, including nickel-plated contacts and shielding, helps maintain signal integrity during transfers and reduces interference. With support for DisplayPort Alternate Mode, it can also pass video from compatible hosts to USB-C monitors. The 1 m length keeps setups tidy while offering enough reach for typical desktop and meeting-room use.
