Product description

Why choose this cable?

Prokord Cable USB 3.0 Ext Type A-A Male-Female 2m Blue provides secure, high-speed USB 3.2 Gen 1 connectivity for extending USB-A ports up to 2 metres. The LSZH jacket reduces smoke and toxic gases for safer indoor use. Its bright blue finish helps keep cables organised and easy to trace.

Cable USB 3.0 Ext Type A-A Male-Female 2m Blue in short:

- Extends an existing USB-A connection without replacing cables, useful for repositioning hubs or devices.
- Supports data transfer rates up to 5 Gbit/s, suitable for external drives and large file transfers.
- 2 m length balances reach and tidy routing for desktop and workstation setups.
- LSZH round jacket and nickel-plated contacts improve safety and resistance to corrosion.
- Not suitable when you need longer runs than 2 m or specialised industrial cabling.

Use and compatibility

The Prokord Cable USB 3.0 Ext Type A-A Male-Female 2m Blue is an extension cable for USB-A ports, intended for connecting or relocating peripherals such as external storage, printers, and hubs. It supports USB 3.2 Gen 1 speeds and offers modest power delivery up to 4.5 W, so it is designed primarily for data connectivity rather than high-current charging. The straight, blue connectors and round LSZH jacket make the cable easy to route and identify in office and public environments.
