

Prokord USBEX02-15m

Data sheet

Core Specs

Cable length	15 m
Connector 1	USB-A
Connector 2	USB-A
Product colour	Black
USB version	USB 2.0

Summary

- ✓ Extends USB 2.0 connections up to 15m for flexible device placement
- ✓ Standard Type A male to female fits common USB peripherals
- ✓ Low smoke zero halogen jacket gives safer use in shared spaces
- ✓ Straight USB-A connectors and round cable simplify installation

Product description

Why choose this USB cable?

Prokord Cable USB 2.0 Ext Act Type A-A Male-Female 15m Black extends USB connections up to 15 metres while keeping signal integrity for standard peripherals. It reduces the need for extra hubs or repeaters, simplifies long-distance setups, and uses a low smoke zero halogen jacket for safer installations in offices, retail spaces, and public buildings.

Cable USB 2.0 Ext Act Type A-A Male-Female 15m Black in short:

- Active USB-A male to USB-A female extension for reliable 15 m runs, suitable for printers, scanners, POS terminals, and presentation equipment.
- USB 2.0 compatibility for common peripherals that do not require USB 3.0 speeds.
- Low smoke zero halogen (LSZH) jacket for use in confined or public spaces where reduced smoke and halogen emissions are preferred.
- Straight-form USB-A connectors and a round cable profile for straightforward routing and plug-and-play use.
- Consideration: this is a USB 2.0 active extension, so it is not intended for high-bandwidth devices that require USB 3.x performance.

Product details

The cable includes an integrated active module that boosts and regenerates the USB 2.0 signal over the 15 m length. You can use it to place printers or scanners farther from host systems without loss of connectivity, and the female USB-A end accepts standard USB-A plugs for simple connection. The black, round LSZH jacket stands up to everyday handling and supports safer cabling in professional installations.
