Product description

Why choose this VGA cable?

Prokord Cable VGA HD15mA - HD15fe W/O Pin-9 5m gives a reliable way to transmit analogue video across a five metre run. It combines a robust grey PVC jacket with braided and foil shielding and gold plated contacts to reduce interference and keep connections stable, making it suitable for AV setups, conference rooms and legacy device connections.

Cable VGA HD15mA - HD15fe W/O Pin-9 5m in short:

- 5 m length provides flexibility when placing PCs, monitors and projectors without adding signal adapters.
- One HD15 male and one HD15 female connector, ideal for extending or adapting VGA links.
- Gold plated contacts, tinned copper conductors and combined foil and braid shielding help maintain stable analogue video in electrically busy environments.
- Grey PVC jacket, 8 mm diameter and a manageable weight make routing and installation tidy.
- Note the cable omits pin 9, so check device pin requirements before purchase.

Product details

This cable links VGA-equipped computers, projectors and monitors over a standard analogue connection. Inside, 28 AWG tinned copper conductors carry the signal while the foil and braid shielding reduces interference from nearby equipment. Straight-form HD15 connectors with screw fasteners provide a secure fit on D-sub ports. The grey PVC jacket is durable for regular office, classroom or conference-room use, and the single-pack format keeps ordering straightforward.
