

UC610 Duo Noise Cancelling Stereo USB-A Black

Data sheet

Summary

- ✓ Foldable noise-cancelling boom mic for clearer voice transmission during calls.
- ✓ USB-A plug for straightforward plug-and-play use on Windows and Mac.
- ✓ Circumaural ear cups and adjustable headband for extended comfort and passive noise isolation.
- ✓ In-line control unit with tactile buttons to mute calls and adjust volume quickly.
- ✓ Consideration: devices without USB-A ports will need an adapter.

Product description

Why choose this Headset?

Voxicon UC610 Duo Noise Cancelling is a wired stereo headset that delivers clear audio for calls and music while reducing distracting background noise. Its foldable noise-cancelling boom microphone and circumaural ear cups keep conversations intelligible, and the USB-A plug offers quick plug-and-play setup on Windows and Mac. In-line button controls let you manage volume and calls without interrupting your workflow.

Voxicon UC610 Duo Noise Cancelling in short:

- Foldable noise-cancelling boom mic for clearer voice transmission during calls.
- USB-A plug for straightforward plug-and-play use on Windows and Mac.
- Circumaural ear cups and adjustable headband for extended comfort and passive noise isolation.
- In-line control unit with tactile buttons to mute calls and adjust volume quickly.
- Consideration: devices without USB-A ports will need an adapter.

Sound and microphone

This headset balances call clarity and music playback. The stereo design and circumaural cups provide focused listening and reduce ambient noise. The boom microphone uses noise-cancelling technology to filter background sounds, so your voice remains clear to the listener without constant manual adjustment.

Comfort and controls

The adjustable headband and cushioned ear pads are designed for long sessions at a desk or in remote environments. A 2 m cable gives you flexibility around a workstation. The in-line control unit places mute and volume buttons within reach, and the folding boom mic helps protect the microphone and reduces storage space when not in use.

Compatibility and compliance

The wired USB-A connection ensures consistent audio performance without pairing or battery concerns, and it is supported on both Windows and Mac systems. The headset meets RoHS and REACH standards, reflecting environmental compliance you can document for procurement.
