

USB-C Adapter HDMI 4K + USB3.0

Data sheet

Summary

- ✓ Connect a USB-C laptop to an HDMI monitor at up to 4096 x 2160 pixels, 30Hz, for slideshows and video playback.
- ✓ One USB 3.0 port for fast data transfer and for connecting external drives or another hub.
- ✓ USB-C female port for pass-through charging so you can power your host computer while using the adapter.
- ✓ USB-A port supports BC1.2 charging, supplying up to 7.5W to connected devices while transferring data.
- ✓ Note to consider: HDMI 1.4 limits 4K output to 30Hz, not 60Hz.

Product description

Why choose this USB-C adapter?

Prokord USB-C Adapter HDMI 4K + USB3.0 helps you add video, data and power from a single USB-C port. It lets you connect HDMI displays, plug in USB devices, and provide power to your laptop at the same time. The compact white design and short cable make it easy to carry and use for presentations, meetings, or quick workstation setups.

USB-C Adapter HDMI 4K + USB3.0 in short:

- Connect a USB-C laptop to an HDMI monitor at up to 4096 x 2160 pixels, 30Hz, for slideshows and video playback.
- One USB 3.0 port for fast data transfer and for connecting external drives or another hub.
- USB-C female port for pass-through charging so you can power your host computer while using the adapter.
- USB-A port supports BC1.2 charging, supplying up to 7.5W to connected devices while transferring data.
- Note to consider: HDMI 1.4 limits 4K output to 30Hz, not 60Hz.

Product details

This adapter combines HDMI output, a USB 3.0 Type-A port and a USB-C power input in a small hub. The HDMI port uses DP Alt Mode from the host device, so the laptop or tablet must support that mode to use external displays. USB 3.0 delivers up to 5Gbps for fast file transfers and remains compatible with USB 2.0 devices. The 0.15 m cable and white housing keep the unit unobtrusive on a desk or in a bag. It is compatible with MacBook, Google Chromebook Pixel and other USB-C equipped devices that support video output.
