

Power Cube 4X Socket + 2xUSB 2.1 mAh 3m - White

Data sheet

Summary

- ✓ Combine four AC outlets and two USB charging ports to power laptops, monitors, printers, phones, and tablets without extra adapters.
- ✓ 3-meter cable and angled Type F plug let you reach distant wall sockets and keep the connection low profile behind furniture.
- ✓ Cube design keeps sockets accessible and reduces cable crossover on desks, meeting rooms, and small server racks.
- ✓ Intended for indoor use only, not suitable for outdoor installations or heavy industrial equipment.
- ✓ White finish integrates with common office and customer-facing environments.

Product description

Why choose this power cube?

Prokord Power Cube 4X Socket + 2xUSB 2.1 mAh 3m - White brings four grounded Type F outlets and two USB charging ports into a compact unit, so you can reduce adapters and keep devices powered from a single location. The 3-meter cable and angled plug improve reach and access, making it easier to place and manage power in indoor workspaces.

Power Cube 4X Socket + 2xUSB 2.1 mAh 3m - White in short:

- Combine four AC outlets and two USB charging ports to power laptops, monitors, printers, phones, and tablets without extra adapters.
- 3-meter cable and angled Type F plug let you reach distant wall sockets and keep the connection low profile behind furniture.
- Cube design keeps sockets accessible and reduces cable crossover on desks, meeting rooms, and small server racks.
- Intended for indoor use only, not suitable for outdoor installations or heavy industrial equipment.
- White finish integrates with common office and customer-facing environments.

Main functions

The Prokord Power Cube supplies multiple devices from a single point, with AC outlets positioned for easy access and USB ports for charging mobile gear without separate chargers. The cube layout helps separate plugs and cables so you can connect several items without blocking neighbouring outlets.

Practical use and placement

With its long cable and angled Type F plug you can position the power cube where it is most convenient, rather than directly next to a wall socket. That makes it useful for desks, home workstations, meeting rooms, and IT benches where flexible placement and tidy cable routing matter.

Safety and considerations

This power cube is designed for indoor environments and typical office or home electronics. Check load limits of connected equipment and avoid using the product with high-power industrial devices. Keep the unit away from moisture and heat to maintain safe operation.

Technical Specification Matrix

Header

Manufacturer	Prokord
--------------	---------

Features

Cable length	3 m
AC outlet types	Type F
Power plug type	Type F (CEE 7/4)
Power plug form factor	Angled
