

Travel S10WLBRF Wireless Mouse Black

Data sheet

Summary

- ✓ Portable ambidextrous design that fits easily in a laptop bag for travel and hot-desk use
- ✓ 1600 dpi optical sensor for accurate tracking on common office surfaces, useful for spreadsheets and document work
- ✓ RF wireless dongle provides plug-and-play connection and stable range without Bluetooth pairing
- ✓ Three pressed buttons and a single scroll wheel for straightforward navigation and presentations
- ✓ Uses standard batteries, so you can carry spares for longer trips

Product description

Why choose this mouse?

Voxicon Travel S10WLB is a compact, ambidextrous wireless office mouse that combines reliable RF connectivity with 1600 dpi optical tracking for precise pointer control. Its low-profile form and simple three-button layout make it easy to pack, quick to set up, and comfortable for extended use with either hand.

Travel S10WLB in short:

- Portable ambidextrous design that fits easily in a laptop bag for travel and hot-desk use
- 1600 dpi optical sensor for accurate tracking on common office surfaces, useful for spreadsheets and document work
- RF wireless dongle provides plug-and-play connection and stable range without Bluetooth pairing
- Three pressed buttons and a single scroll wheel for straightforward navigation and presentations
- Uses standard batteries, so you can carry spares for longer trips

Main functions and performance

The Travel S10WLB uses a 1600 dpi optical sensor to deliver steady, accurate tracking across most desk surfaces. The three-button layout and single wheel keep navigation intuitive. You get precise cursor movement for everyday office tasks, from data entry to slide control during presentations.

Connectivity and portability

Setup is simple with the included RF wireless dongle, which frees you from pairing steps and preserves laptop Bluetooth capacity. The mouse runs on standard batteries, so you can replace power quickly when needed. Its low-profile dimensions (7 mm high, 38.7 mm wide, 99.5 mm deep) make it easy to stow alongside a laptop.

Comfort and usability

The ambidextrous shape adapts to left or right-handed use to reduce awkward wrist positions during extended sessions. Pressed buttons provide clear tactile feedback for dependable clicks, and the centered scroll wheel supports smooth vertical navigation. This combination makes the Travel S10WLB well suited for administrative staff, remote workers, and frequent travelers who need a reliable, no-fuss pointing device.
