Product description

Why choose this ink cartridge?

Gilford Black Colour DC-36BK - Mini 260 / CLI-36 is a compatible, single-pack ink cartridge that supplies cyan, magenta, and yellow for compact Canon Pixma printers. It delivers consistent colour reproduction and quick, straightforward replacement. The cartridge helps control running costs and keeps routine colour printing reliable and efficient.

Gilford Black Colour DC-36BK - Mini 260 / CLI-36 in short:

- Compatible single-pack design for easy replacement and inventory management
- Supplies cyan, magenta, and yellow for colour documents and photos
- Suited for compact Canon Pixma models such as iP100 and mini260/320
- Reduces downtime with straightforward installation and predictable performance
- Practical choice for everyday colour printing in small offices and studios

Main functions

This cartridge supplies the three primary colour inks needed for accurate colour output, making it suitable for documents, reports, and basic photo prints. The single-pack format simplifies ordering and replacement, and the compatible design integrates into existing workflows without extra setup. Use it when you need steady, everyday colour printing from compact Canon Pixma devices.
