

Power Strip 4X Socket 2xUSB 2.1 mAh 5m - White

Data sheet

Summary

- ✓ Four grounded Type F AC outlets for powering computers, monitors and peripherals.
- ✓ Two USB ports for charging phones and tablets, rated 5V 2.1A for straightforward device charging.
- ✓ Five-metre cable with an angled Type F plug for flexible placement and a low-profile connection to the wall.
- ✓ Illuminated on/off rocker switch for easy control of all outlets.
- ✓ Consideration: designed for indoor use and not intended for high-power appliances.

Product description

Why choose this power strip?

Prokord Power Strip 4X Socket 2xUSB 2.1 mAh 5m - White helps you manage multiple devices from a single, compact unit. Four grounded AC outlets and two USB ports reduce the need for extra adapters. The five-metre cable and angled Type F plug improve placement options, and the built-in on/off rocker lets you control power to all connected devices quickly and safely.

Prokord Power Strip 4X Socket 2xUSB 2.1 mAh 5m - White in short:

- Four grounded Type F AC outlets for powering computers, monitors and peripherals.
- Two USB ports for charging phones and tablets, rated 5V 2.1A for straightforward device charging.
- Five-metre cable with an angled Type F plug for flexible placement and a low-profile connection to the wall.
- Illuminated on/off rocker switch for easy control of all outlets.
- Consideration: designed for indoor use and not intended for high-power appliances.

Main functions

The power strip combines multiple AC outlets and USB charging ports in one unit to simplify desk and cabinet setups. You can plug in workstations, displays and networking gear while charging mobile devices without extra adapters. The switch lets you cut power to all connected items when they are not in use.

Design and handling

The elongated, white housing places outlets in a straight line for neat cable routing. Front-facing USB ports keep chargers accessible. The long 5 m cable and angled plug make it easier to reach distant sockets and to keep the plug close to the wall for a tidy installation.

Safety and setup

The Type F outlets provide grounding for compatible equipment. Use the unit indoors on a dry, stable surface and check device power requirements before connecting high-draw appliances. The rocker switch provides a simple way to disconnect power when equipment is idle.

Technical Specification Matrix

Header

Manufacturer	Prokord
--------------	---------

Features

Cable length	5 m
--------------	-----

AC outlet types	Type F
Power plug type	Type F (CEE 7/4)
