

Ergonomic Mouse Pad with Wrist Support – Office Use

Data sheet

Summary

- ✓ Cushioned wrist rest to help maintain a neutral wrist position during extended computer work.
- ✓ Non-slip rubber base keeps the pad steady on desks and prevents unwanted movement.
- ✓ Smooth, monochromatic fabric surface in black and blue for consistent tracking with optical and laser mice.
- ✓ Compact 230 x 250 mm footprint and 3 mm thickness, suitable for smaller workstations and laptop setups.
- ✓ Consideration: the compact size may feel small for users with larger hands or those who prefer a wider mouse area.

Product description

Why choose this mouse pad?

Voxicon Ergonomic Mouse Pad with Wrist Support – Office Use provides cushioned wrist support and a stable non-slip base to reduce discomfort during long desk sessions. The soft, monochromatic fabric surface ensures consistent mouse tracking while the slim profile keeps your workspace tidy. It is practical for office environments where comfort and reliable cursor control matter.

Ergonomic Mouse Pad with Wrist Support – Office Use in short:

- Cushioned wrist rest to help maintain a neutral wrist position during extended computer work.
- Non-slip rubber base keeps the pad steady on desks and prevents unwanted movement.
- Smooth, monochromatic fabric surface in black and blue for consistent tracking with optical and laser mice.
- Compact 230 x 250 mm footprint and 3 mm thickness, suitable for smaller workstations and laptop setups.
- Consideration: the compact size may feel small for users with larger hands or those who prefer a wider mouse area.

Ergonomic Mouse Pad with Wrist Support – Office Use

The ergonomics focus on reducing pressure on the wrist by providing a contoured, fabric-covered cushion that supports natural hand posture. The surface material offers low friction for precise pointer control, while the rubber underside secures the pad in place on different desk surfaces. Made of fabric and rubber, the pad has a slim 3 mm profile that balances comfort with a low visual impact on the desk.
