- ✓ Designed to reduce installation time and minimize service interruptions during routine system work.
- ✓ Black and silver finish that integrates with common AV equipment and resists wear in everyday use.
- ✓ Not intended for high-end broadcast applications or advanced video processing features.

Product description

Why choose this video adapter kit?

Prokord Video Adapter Premium Wire+Tool Kit bundles essential connector parts and tools in a compact set that speeds up installations and repairs. The kit keeps mounting hardware, protective covers and a small driver at hand, reducing downtime and simplifying routine maintenance with durable black and silver components suited to typical AV environments.

Video Adapter Premium Wire+Tool Kit in short:

- Compact kit with essential tools and spare parts for on-site video maintenance and quick repairs.
- Includes a compact T-handle driver, mounting screws, protective covers and cable clips to secure connections.
- Designed to reduce installation time and minimize service interruptions during routine system work.
- Black and silver finish that integrates with common AV equipment and resists wear in everyday use.
- Not intended for high-end broadcast applications or advanced video processing features.

Product details

The Prokord Video Adapter Premium Wire+Tool Kit provides the small parts and basic tools you need for everyday video-system tasks. It helps you secure connectors, manage cable strain and perform fast connector swaps or minor repairs without a full toolbox. The compact components are practical for field technicians, facility maintenance teams and anyone who needs a reliable, portable kit for routine AV work.
