Product details

This Prokord cable uses copper conductors and individually shielded pairs to provide consistent data transfer rates up to 10000 Mbit/s. Male RJ-45 connectors on both ends make it simple to patch between switches, panels and wall outlets. The LSZH jacket lowers hazardous emissions in enclosed spaces, and the slim, flexible construction with 32 AWG wiring makes it convenient to route in tight spaces while supporting Power over Ethernet for cameras, access points and phones.
