Product description

Why choose this USB hub?

Prokord USB 3.1 Hub 3-Port + RJ45 lets you add three high-speed USB-A ports and a gigabit Ethernet connection to a USB-C laptop or tablet, while delivering up to 100W of power to the host. It reduces the need for adapters, keeps wired networking stable for large transfers or remote access, and fits a compact, silver housing that stays tidy on a desk or in a bag.

USB 3.1 Hub 3-Port + RJ45 in short:

- Adds three USB 3.1 Gen 1 Type-A ports for mice, keyboards, and external storage at high transfer speeds.
- Provides one RJ-45 gigabit Ethernet port with Wake-on-LAN and jumbo frame support for reliable wired networking.
- Pass-through USB Power Delivery 3.0 up to 100W to charge your laptop while other devices are connected.
- Compact, lightweight silver design for easy portability and minimal desk clutter.
- Consider that the host device must support USB-C data and power delivery for full functionality.

USB 3.1 Hub 3-Port + RJ45

This Prokord hub connects via a USB-C cable and expands a single port into multiple practical interfaces. Use the USB-A ports for external drives, peripherals, or USB accessories, while the RJ-45 port gives you a stable network connection for large file transfers, video calls, or network booting. Power Delivery passthrough keeps your laptop charged up to 100W so you do not lose battery while working. The hub’s small footprint and 68.5 g weight make it easy to carry between locations, and the silver finish complements modern workstations.
