Product description

Why choose this USB-C hub?

Prokord Travleport USB-C To 3XUSB+HDMI gives you practical expansion for laptops and tablets with a USB-C port. It combines three USB-A ports and an HDMI output in a compact silver casing. Use it to attach storage, input devices, and a 4K display for presentations, extended desktop work, or quick workstation setup when you travel or work away from your desk.

Travleport USB-C To 3XUSB+HDMI in short:

- Three USB-A ports for external drives, mouse, keyboard, and other peripherals at the same time.
- HDMI output supports up to 3840 x 2160 at 60Hz for clear 4K video and smooth motion.
- Compact silver design that fits in a laptop bag and looks professional on a desk.
- Plug-and-play on most systems, so you can connect and work without extra software.
- Note the host device must support DisplayPort Alt Mode over USB-C for the HDMI video output to work.

Connectivity and use

Prokord Travleport USB-C To 3XUSB+HDMI lets you expand a single USB-C port into multiple standard USB connections plus an external display. The HDMI port enables high-resolution output for client demos, video review, or a second monitor. The three USB-A ports keep your essential peripherals connected while you work.

Design and compatibility

The hub’s silver finish provides a professional look and a small footprint for travel or shared workspaces. It connects via a short USB-C cable, so it sits close to your laptop without extra clutter. Check that your laptop or tablet supports video over USB-C to ensure full functionality.
