- ✓ Wired USB-A connection and 1.5 m cable for plug-and-play reliability.
- ✓ Ten units packaged together for quick provisioning of workstations or training rooms.

Product description

Why choose this mouse?

Travel Mini M32W Voxicon is a compact wired mouse designed for frequent travel and bulk deployments. It delivers reliable optical tracking and adjustable sensitivity so you can work accurately on different surfaces. The ambidextrous shape and low profile support comfortable use for extended periods, while the 10-pack format saves time when equipping teams or meeting rooms.

Travel Mini M32W 10-Pack in short:

- Compact, low-profile mouse that fits easily into laptop bags and kiosks.
- Ambidextrous design for comfortable left- or right-handed use.
- Adjustable movement resolution up to 1600 dpi with three presets for office tasks and cursor precision.
- Wired USB-A connection and 1.5 m cable for plug-and-play reliability.
- Ten units packaged together for quick provisioning of workstations or training rooms.

Compact, travel-ready design

The Travel Mini M32W is built to be portable and unobtrusive. Its small footprint and 36 mm height make it easy to carry and store. The matte black finish resists wear from frequent handling. You get straightforward, familiar controls with a scroll wheel and three pressed buttons that work the same whether you use your left or right hand.

Precise, configurable tracking

This mouse uses optical movement detection and offers three resolution modes that include 1600 dpi. You can switch sensitivity to match spreadsheet navigation, web browsing, or light graphic tasks. The wired power source and USB-A interface provide a stable connection without battery management, so you can stay productive during travel or in shared environments.

Bulk-ready for deployments

The 10-pack format simplifies purchasing and inventory for IT teams. Travel Mini M32W units are suitable for classrooms, temporary workstations, conference rooms, and field kits. The uniform design and cable length make setup predictable and maintenance straightforward, helping you keep multiple workstations consistent and ready for use.
