- ✓ HDCP and MST support enable protected content and multi-screen use

Product description

Why choose this Mini DisplayPort cable?

Prokord Mini Displayport - Mini-Displayport is a 1 m Mini DisplayPort-to-Mini DisplayPort cable that delivers reliable high-resolution video up to 4Kx2K at 60 Hz. Its TPE jacket, dual-layer shielding and gold-plated contacts reduce interference and improve connection longevity. Use it where a compact, durable link is needed, such as tidy workstation setups, meeting rooms and AV test benches.

Prokord Mini Displayport - Mini-Displayport in short:

- Direct Mini DisplayPort to Mini DisplayPort connection with straight, male connectors on both ends.
- Supports DisplayPort 1.2 and HDCP, enabling 4Kx2K at 60 Hz and multi-stream transport for extended display setups.
- Durable build with TPE jacket, aluminium foil plus braid shielding, tinned copper conductor and gold-plated contacts for stable signals.
- Data throughput of 5.4 Gbit/s for consistent video performance in typical desktop and conference-room environments.
- Consider the 1 m length when planning longer cable runs.

Product details

Prokord Mini Displayport - Mini-Displayport provides a simple, high-quality link between compatible sources and displays. It supports DisplayPort 1.2 features including MST, and HDCP for protected content, while the shielding and construction help maintain signal integrity in installations with multiple cables. The cable does not support HDR, so plan accordingly for HDR-specific workflows. Its compact length and robust connectors make it practical for organised desks and AV racks.
