Product details

This Prokord cable features male RJ-45 connectors on both ends and 26 AWG copper conductors to deliver consistent signal quality over its 10 metre length. The S/FTP (S-STP) construction gives robust protection against crosstalk and external noise, so you get stable connections in rack-dense or electrically noisy environments. The LSZH jacket improves safety for indoor installs, and the single-pack format makes it easy to add or replace links in your network.
