- Laser printing performance for clear, consistent text and graphics.
- High page yield of up to 12,000 pages reduces replacement frequency and operating cost.
- Supplied as a single unit in Gilford branded packaging, simple to store and install.
- Consideration: designed specifically for the listed Brother models and may not work with other printers.

Drum Dr-2300 12K - HI-2340 - Dr2300

This compatible drum unit restores and maintains image transfer quality in Brother HL-2340 and DR2300 printers. It supports routine high-volume jobs by promoting even toner transfer and steady print density across long runs. Packaged as a single Gilford unit, it is straightforward to fit and replace. Verify model compatibility before installation to avoid printing issues.
