Summary

- ✓ Connect Mini DisplayPort laptops to DVI-D displays with one cable
- ✓ Dual Link DVI support enables higher resolution and smoother images
- ✓ 1.8m length provides flexible placement between PC and monitor
- ✓ Straight male connectors deliver stable, reliable connections

Product description

Why choose this cable?

Mini Displayport To DVI-D Singel Link 1.8m Black Prokord is a practical cable for connecting devices with a Mini DisplayPort output to DVI?D displays. It provides a reliable digital video link over 1.8 m, simplifies desk and meeting-room setups, and supports dual link DVI where both source and display allow higher resolutions.

Mini Displayport To DVI-D Singel Link 1.8m Black in short:

- Connects a Mini DisplayPort output to a DVI?D input, ideal for monitors and projectors with DVI?D.
- 1.8 m length offers flexible placement without needing extensions.
- Straight, male-to-male connectors make installation simple and predictable.
- Supports dual link DVI where supported by your equipment, for higher-resolution displays.
- Check that your source supports DisplayPort dual?mode or the required conversion for passive cables.

Mini Displayport To DVI-D Singel Link 1.8m Black

This Prokord cable carries digital video between Mini DisplayPort sources and DVI?D displays. The straight male Mini DisplayPort and DVI?D plugs plug in directly, so you can set up workstations, meeting-room systems, or single-display installations quickly. The cable is supplied as a single pack item and comes in black to match typical AV and office environments. Note that DVI?D carries video only, so audio must be routed separately if needed.
